

M40-D

4 inch Digital Pressure Switch

Specifications:

Power supply	10~30VDC
Pressure range	-14.7psi / 0~5000psi
Resolution	1/1,000
Unit	psi , bar, Kg/cm ² , MPa
Working temperature	-10°C~60°C
Accuracy	±0.5% F.S (@22~28°C)
Analog output accuracy	±1%F.S(option)
Port	1/4NPT
Measure fluid	Gas or Liquid compatible with SUS304L
Contact output	NPN*2 or PNP*2 (100 mA)
Electrical Wire	AWM 2464, AWG28, 5C Cable length 2 m for DC power

Three independent display areas:

Display window (top)	4 digital LED current pressure display (red color.)
Display window (right)	4 digital LED high preset pressure (orange color.)
Display window (left)	4 digital LED low preset pressure (green color.)
